Skilled Nursing Facilities in the North Shore

This list of Skilled Nursing Facilities has been recommended by our patients. This is not an all inclusive list of facilities in the area. If you are interested in staying at a Nursing facility after your hospital stay, we recommend that you tour the facility and find one that is comfortable and convenient for you. Let the facility know what day you are scheduled for surgery and that you expect to have a 3 day hospital stay. The formal reservation will be made by the discharge planner at the hospital when they see you the day after surgery. Please contact your insurance company to inquire about coverage.

Transportation from the hospital: Most patients are able to travel by automobile following their Joint Replacement surgery. Please make arrangements for a family member or friend to be available to drive you from the hospital the day of your discharge. Discharges usually take place early afternoon, generally after lunch. Transportation can be arranged through the social work team with a Medicar if needed.

\*\* Indicates that facility provides transportation from the hospital
